

Project Udaan

Udaan students attending classes with PACE Educational learning Trust

After qualifying the entrance exam of PACE in which students from all over Pune had appeared, all 13 students from Project Udaan have been admitted to Rajiv Gandhi Junior college (IIT-JEE batch) and are eligible to getting coaching from one of the best coaching institutes of Pune' PACE Learning'. So from August 2018 onwards our students are studying in PACE where they have a packed schedule from morning to late evening. We are with them whenever they require extra classes to clear their difficulties and doubts.

Students of Std 11 taking the Avanti test based on the IIT JEE pattern

Jayshree Thakkar teaching the new batch of Std 10. This time we have more girls

IIT Alumnus YV Sridhar explaining Physics concepts to Std 11 students using videos

Std 10 Student clarifying a doubt with his Chemistry teacher Mr. Sunil Auti

Felicitation of SSC students in the presence of GREAT Foundation Team

Dr. Saroj Virkar, Advisory Board Member, of GREAT Foundation was the Chief Guest at Vasantdata High School felicitation of Project Udaan students

SSC PMC School Topper, Onkar Shinde being felicitated by Mr. Mali, Education officer of PMC in the presence of GREAT Foundation team

Project STEM: We are grateful to our new and old donors who have shown interest in supporting us and become part of our Project STEM. We also thank the schools which have given us permission to set up Project STEM in their schools and allowed us to work for the benefit of their teachers and students. All these are no fee schools which work for less privileged students. This year we have begun the Project in six civic schools and three PMC schools and These schools are being supported by Icertis, Harman Charitable Trust and Ammada Trust. We are going to start the Project in four Pune Cantonment Board schools in September.

With the help of our well wisher and Donor (Harman Charitable Trust) we were able to set up one more e-learning class room for Std 5 to 7 students in Girme High School. Students seem totally focused on their lessons while learning with the Gkclass App.

Education is the most powerful weapon you can use to change the world
